

SENSE
HOTEL SOFIA

THINKING FOR THE PLANET

We believe the future of travel has to be sustainable and we all can safeguard our planet. Here at Sense Hotel we make every effort and take steps, wherever possible, without compromising our guests' and team's comfort and well-being. Just a bit of green thinking.

We have switched to bulk-size bathroom amenities thus replacing the plastic miniatures

We use recycled paper and print responsibly

We maintain environmentally friendly practices in regards to bed and bath linen laundry together with you, our guests

We make our best to digitalise all processes to avoid unnecessary paper printing

We use biodegradable napkins and biodegradable laundry bags instead of the traditional plastic ones

All our rooms are equipped with LUTRON® lighting control - the most sophisticated energy saving solution

We replaced harmful plastic straws with biodegradable pasta and glass straws

We are frequent tree planters

We changed disposable plastic cups with reusable ceramic cups

We encourage our staff to commute to work by bicycles or scooters

We use more local quality produce across our food menu by proven local suppliers

We offer to all our guests electrocharging station in the parking
